

课时学习目标:

能识别科普文章的文体特征，如内容、结构和语言方面的特征；

能依据科普文的核心观点和支撑论据概括三个科学实验；

能借助因果分析，进一步探究语言学习对大脑和思维方式的影响，提升学习外语的积极性。

Part I: Skim the passage and identify the benefits of learning a new language.

1. What is the passage mainly about?

2. What are the possible effects of learning a new language on your brain?

Part II: Scan the passage and comb the key information of them.

Part	Paras	Purpose	Topic sentence
1			
2			
3			

Part III. Identify the key factors of scientific experiments and studies.

Scientific experiments and studies	Argument 1	Argument 2	Argument 3
Subject			
Process			
Result			
Conclusion			

--	--	--	--

Part IV: Watch a video clip and summarize more effects of learning a new language on our brain.

Can you name more benefits of learning a new language mentioned in the video?
